THE PIOCHE DAILY RECORD. SUNDAY, .....JULY 19, 1874.

LOCAL INTELLIGENCE. ARRIVALS AND DEPARTURES.

ARRIVALS. OF TRAVES & CO.'S HAMILTON LINE: E J Travis Fred Salisbury A A Young

BY GILMER AND SALISBURY'S SALT LAKE LINE: James Cook DEPARTURES.

BY THAVIS & CO.'S HAMILTON LINE J B Avers Phil Depengner Mining Review.

With the exception of the Pioche, the condition of mining matters are changed out little since we last reported on them. Yesterday we had the pleasure of meeting Captain Day, the Superintendent of

the Raymond & Ely, who returned a day or two since from San Francisco. He informs us that the contract for supplying pumps and gearing irons for the rods, engines and boilers, and all other fitings for setting up the pumping machinery, has been taken by H. J. Booth and Fred Salisbury. Mr. Gilmer has been on a tour around the countries the contract in ninety days from the date of signing. The machinery is to be of the best and most substantial character, and the engine will be one of the very largest that has been set up in Jose Hotel. the State-only one other, that of the Savage, equalling it in size. The pumprods has been contracted for and will b supplied by a firm at Alta. The rods will be made of red spruce, the toughest and most desirable material for such pur-poses to be found on the coast. In order to put the rods and pumps in place, the pumping compartment of the Lightner shaft will have to be enlarged, and the work will be commenced to morrow. We cannot but express our gratification that steps have been taken to procure machinery to free the shaft from water, so that the exploration of the vein below the water-level will be resumed. below the water-level will be resumed. The great extent and continuity of the Raymond & Ely ledge, both in length and depth, has removed all doubts as to its being a true fissure vein, and we feel certain that the discovery of ore equaling, perhaps exceeding the famous bonanza struck in the Lightner shaft, is simply a question of time. The mine, as it stands at present, differs but little from its appearance when we last visited from its appearance when we last visited it. The southwestern and eastern drifts on the 1200-foot and the drift on the on the 1200-100t and the drift on the 1000-1001 levels, show the same as herotofore in their faces. The only alteration simply has been in their being opened to a greater extent. The mills are working on tailings, but the yield has not been so good as heretofore. The Mannet Company are variety delity from

orked yields reasonably well.

As regards the condition of the mine As regards the condition of the mine the foregoing remarks would, to a great extent, apily describe the Meadow Valley. The western drift of the 1200-foot level is 176 feet in length; the east 63. The faces in both are without change. On the 1100-foot level the east drift is in 259 feet, without any change worthy of remark in the face. The west winze is 84 feet deep. The winze from the east drift of the ninth level is 151 feet deep. The drift itself has attained a total length of 981 feet. The west drift that was started on the 440-foot level, is 53 feet long.

Magnet Company are raising daily from 25 to 30 tons of ore, which on being

The Summit shall is now 1,100 feet The Summit shaft is now 1,100 fees deep, and is being pushed as rapidly as possible. If pumping machinery are set up by the company it will have to be piaced in this shaft. We understand also that there is but little doubt that machinery of that character will be erected, for when once the water level is reached explorations water level is reached explorations below that will have to cease, unless the Raymond & Ely works will carry the whole accumulation of water on the vein, which is very problematical. In the other departments the operations of the company are as usual. The appearance of things at the Pinch.

The appearance of things at the Pioche are more cheering than they have been for some time past. The explorations of the new ground lying between the new shaft and the new works has revealed a considerable thickness, carrying ore in large quantities. For a distance of over 400 feet the ledge has been opened and is continuously ore hearing. opened, and is continuously ore-bearing, and from the regular nature of the form-ation in which it is imbedded, it may be expected to continue so. One of the greatest difficulties the miners in this rece expected to continue so. One of the greatest difficulties the miners in this region have had to contend with is the great number of faults caused by the intrusion of dykes of barren rock, but the ground recently opened in the Pioche, under the superintendence of T. R. Butler, appears to be singularly free of these unwelcome visitants. For a length of 500 feet traversed by the drifts, the formation seems unsually even and free from breaks. A great number of assays have been made from the ledge by Mr. Butler in person, and they all show a very large increase in the percentage of gold, much greater than has ordinarily been found in this neighborhood. Ore is already being raised and preparations are being made to take it out in large quantities, if the deposit is continuous, of which there is every appearance at present.

At the American Flag the shaft has reached 1,000 feet in depth, and a station is being opened at that point. Other things are much the same. The mill is things are much the same. The mill is at work partly on tailings and partly on ore. A shipment of bullion was made yesterday of something over \$5,000.

The Newark mine is progressing as usual. The work on the new shaft continues without change. Ore is being taken from the old workings, which is reduced at the Company's mill, from which source considerable bullion is being obtained.

BIBLES FOR ALL.-The Nevada State Bible Society (an account of whose organization was published in our columns last Winter) is endeavoring to supply the whole State with bibles. The Rev. H. L. Badger informs us that he has promised to distribute in this county, and now has on hand a large variety of bibles of all sizes, from pocket testaments to large family bibles. They are from the American Bible Society, and are to be sold at the exact cost of manufacture and freight, the prices varying from one bit to four dollars and a half. In no case is there any profit on the sale of these books. Those who do not feel able to purchase will be supplied without charge. Mr. Badger has been engaged in this work for some days past, and has already supplied quite a number, though he finds a much larger proportion than he expected, of both men and families already supplied. Those who wish to see the large bibles are requested to call at the rectory, the first house east of the church. promised to distribute in this county,

SERVICES TO-DAY AT THE EPISCOPAL CHURCH. - Morning service at 11 o'clock; Sunday-school at 2 p. m.; evening service at 8 o'clock. The sermon this moruing is on the distinctive features of the Protestant Episcopal Church. Seats all free at every service. H. L. Banders, Rector.

DIED.-We learn by the Ithaca, N. Y. paper, that a brother of Frank Schoonmaker died in that place on Monday, the 15th of June. The local paper of the 18th of June, in reference to the dethe 18th of June, in reference to the de-ceased, says: "Mr. Schoonmaker, whose death is recorded elsewhere, was taken with a slight shock of paralysis, fitteen weeks ago, and has been sinking until Monday, when he died. His brother ar-rived from Nevada about an hour before he died. Frank Schoonmaker left here about 23 years ago. He spent several years in California and then went to Ne-vada, where he has spent most of the time since. He returns to witness his brother's death, and to find most of the people whom he knew before he left, passed from his memory; and the vil-lage grown to city proportions."

YESTERDAY the early part of the day was excessively warm and sultry, but during the forenoon it clouded up and a little rain fell. Towards the north and northwest there was a very heavy thunder shower; also at Bullionville, where a con-siderable rain occurred. The rain, how-ever, was by no means general. Towards evening the atmosphere was much cooler and later a little rain fell, but not enough

ARRIVED.-We noticed among the arrivals yesterday E. J. Travis, J. Gilmer and Fred Salisbury. Mr. Gilmer has

THE FLORAL MILL has been engaged during the past week in reducing a number of small lots of ore taken out from various ledges by parties on shares. As we noticed the other day some of the parcels of ore proved very rich and yielded excellent returns. The mill, un-der charge of Mr. McMasters, is working very satisfactorily.

PROTOGRAPHIC. - All persons desiring good picture will please call on W. L. FIME WINES, LIQUORS AND CIGARS Hudnall immediately, at the photograph gallery formerly owned by Sut-terly & Fox, as I shall close the gallery on the 14th inst. Pictures may be had from old negatives by ordering at once, and also views of the town.

W. L. HUDNALL.

BULLIONVILLE.—We had the pleasure of meeting Mr. Worley, of Bullianville. That gentleman says things in that rustic burg are very quiet. The weather has been extremely warm, and that or some other cause has induced a consid-erable amount of sickness, which we re-

THE MATINEE.-The performance of the Pioche Minstrels on Saturday at Hanley's Hall, was very meritorious, fully equalling the former ones which proved so acceptable to our citizens. There was a very fair audience, chiefly composed of ladies and children.

RETURNED. - Yesterday we were glad to note the return of our fellow citizen, A. A. Young, who has been taking a trip to the West. Mr. Young looks well, and says be had a very pleasant journey.

PRITCHARD'S LINE.-In addition to the amount of bullion shipped by Wells, Fargo & Co., \$23,799.50 was shipped by Pritchard's line during the month of

To-MORBOW the District Court will meet, when jurors would do well to be within call. COUNTY COMMISSIONERS .- There will be an adjourned meeting of the Board to-

Since the Fourth matters have been quite on the jog-trot order, and local items have been alarmingly scarce.

HAVANA SILVER MINING COMPANY .-

MRS. WHYLAND, desiring to close up her business and leave for the East, wishes to notify her friends and patrons that she will sell her large stock of goods very cheap for cash. All must be sold in thirty days. Give her a call. jy9tf July 4th, 1874 .- The "Spirits" of '76-

1812—at the Panaca Saloon, Lacour street, drank standing—with One Price, One Bit accompaniment. Music by "Gideon's" band. ICE CREAM .- Call and try some of that

delicious ice cream now dispensed at the Capitol Restaurant, Lacour street. Families served. je23-1w Go to ALEXANDER'S, Main street, op-

posite Lacour, for your drugs. my2t SAN PRANCISCO STOCK REPORT.
